

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (original) Transceiver set for a baby monitor, having a transmitter case (1) and a receiver case (2), characterized in that the transmitter case (1) has at least one removable wall (4) permitting access to the interior of an enclosure (15) having dimensions greater than those of the receiver case (2).

Claim 2 (original) Transceiver set according to claim 1, characterized in that the base (16) of said enclosure (15) has a formation provided to cooperate with the lower face (34) of the receiver case (2) or in that one of the inner walls of said enclosure (15) has means for hanging the receiver case (2).

Claim 3 (currently amended) Transceiver set according to ~~one of claims~~ claim 1 or 2, characterized in that

In re of: SERRES VIVES2

the ratio between the volume of said enclosure (15) and of the receiver case (2) is comprised between 1.3 and 2.5.

Claim 4 (currently amended) Transceiver set according to ~~one of the preceding claims~~ claim 1, characterized in that the transmitter case has a pedestal (14) covered by an exterior shell (3), said enclosure (15) being delimited between the exterior shell (3) and said pedestal (14).

Claim 5 (original) Transceiver set according to claim 4, characterized in that said pedestal (14) encloses means forming a microphone (9), supply means and an electronic circuit (18) for management of the operation.

Claim 6 (currently amended) Transceiver set according to ~~one of the preceding claims~~ claim 4, characterized in that said removable wall (4) has elastic coupling means provided to cooperate with retaining means of the exterior shell (3).

Claim 7 (currently amended) Transceiver set according to ~~one of the preceding claims~~ claim 1, characterized in that the transmitter case (1) has a bulb (20) connected to the supply means and to the electronic circuit of this latter.

In re of: SERRES VIVES2

Claim 8 (currently amended) Transceiver set
according to ~~one of the preceding claims~~ claim 4, characterized
in that said exterior shell (3) is made of a material that is
transparent to light over at least a part of its surface.

Claim 9 (currently amended) Transceiver set
according to ~~one of claims~~ claim 4 to 8, characterized in that
the internal wall of said exterior shell (3) is covered with a
light reflecting material over at least a part of its inner
surface facing the bulb.

Claim 10 (currently amended) Transceiver set
according to ~~one of the preceding claims~~ claim 1, characterized
in that the receiver case (2) is mounted on a bracelet or it
has a clip (31) for attachment to a piece of clothing.

Claim 11 (new) Transceiver set according to claim
5, characterized in that the internal wall of said exterior
shell (3) is covered with a light reflecting material over at
least a part of its inner surface facing the bulb.

Claim 12 (new) Transceiver set according to claim
6, characterized in that the internal wall of said exterior

In re of: SERRES VIVES2

shell (3) is covered with a light reflecting material over at least a part of its inner surface facing the bulb.

Claim 13 (new) Transceiver according to claim 7 characterized in that the transmitter case has a pedestal (14) covered by an exterior shell (3), said enclosure (15) being delimited between the exterior shell (3) and said pedestal (14).

Claim 14 (new) Transceiver set according to claim 13, characterized in that the internal wall of said exterior shell (3) is covered with a light reflecting material over at least a part of its inner surface facing the bulb.

Claim 15 (new) Transceiver set according to claim 8, characterized in that the internal wall of said exterior shell (3) is covered with a light reflecting material over at least a part of its inner surface facing the bulb.
